## EXTERNAL STEEL LOOK DOORS, WINDOWS AND FIXED SCREENS

Double doors with fixed glazing panels

Hinged door with glazing bars

Doors with fixed glazing panels and windows

Our bespoke internal doors and room dividers, featuring slim aluminium sightlines, are made-to-measure to your exact sizes and designs. They are ideal for creating partitions between rooms, offering distinct zones while preserving an open, airy feel.

Contact KAT UK to find out more or to request a quote to design your bespoke glazing.

KAT's modern Steel Look doors are custom-made to your preferred sizes and designs. They can feature slim horizontal and vertical aluminium glazing bars, creating sleek, angular patterns for a sophisticated look. This design ensures a balanced, mirrored appearance on both sides of the door.

We provide both a supply-only service and a supply-and-installation option. If you prefer one of KAT's trusted Installation Partners to fit your Steel Look glazing, we will co-ordinate a visit to your home for a full survey, followed by scheduling a convenient installation date.

Feel free to visit our factory showroom at Unit 1, Mottram Way, Macclesfield, where our team will be delighted to assist you in designing the perfect door for your home.
